

Copying/Pasting a Google Doc to the Portfolio

To put a google doc into their MyEdBC portfolio:

Step 1 – Open up the doc

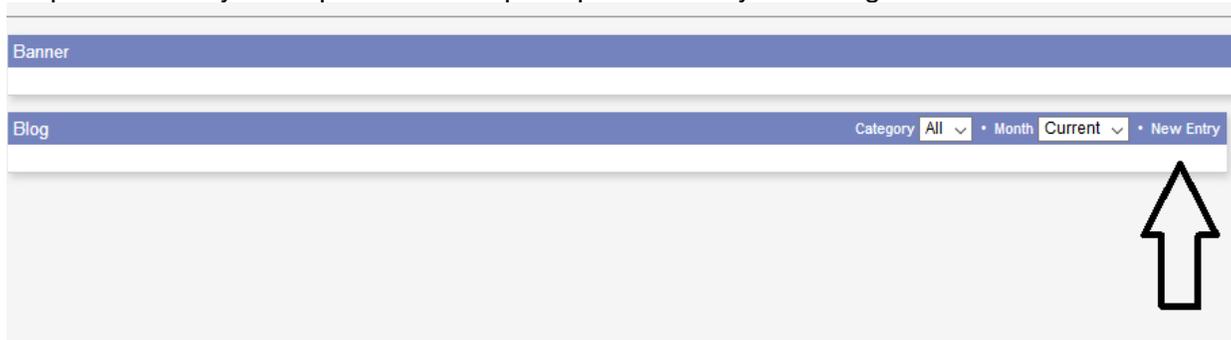

Step 2 – (they need to be very careful with this or they will lose everything) CTRL+A to select all – it will turn blue

Step 3 – CTRL + C to copy (now move off of the doc and do a safety click so it isn't all still highlighted)

Step 4 - Go to MyEdBC portfolio and open up a new entry on a blog.

Step 5 – Click in the blank area below the editing buttons so that you see the cursor blinking
