

Support Blocks - XSPBK

Support blocks are available to students in grades 10 – 12 and are fundable.

The requirements for a support block are outlined in the 1701 instructions (page 14/15).

- Support blocks are not used for adult students, special education students or students who have already graduated.
- Students in a support block must be “engaged in their learning at structured times in addition to their academic or regular program courses.”
 - Attendance is taken.
 - Students are expected to attend regularly.
 - Structured environment
 - A learning plan is created to direct/support student learning, i.e. an “instructional service provided and documented by the teacher”.

Funding:

- A support block can be used to support a student in a Distributed Learning (online) program. Only one support block per student per school year is allowed for this purpose and reflected in the learning plan.
- One or more support blocks can be used to support a student’s “annual academic or regular program courses provided in District schools” (non-DL).
- A support block is only valid for students with a combined maximum of 8 courses (including the XSPBK course sections) in all SD#73 schools
 - Note: Planning 10 & other DL courses that have already been claimed in previous years up to May 5th, 2017 (see active date on student transcript) do not count in these 8 courses.
- All students enrolled in one of more support blocks have their educational plans capped at 8 courses.
