SD73 Level 1 Docs

1. New User Interface - Look and Feel 👀

- Redesigned workspace – new table design
- Better use of space and larger font sizes
- More efficient layout of options and tools menus
- Improved readability on list and detail screens
- A fresh colour palette

2. Performance - Speed Improvements 🏃

3. Teacher Gradebook

- *Gradebook Preferences* are available via gear icon ⚙
- Enter feedback on an assignment without entering a score
- Include/exclude *special codes* in student's average
- *Exclude* an assignment from a term average
- Popup for grade scale, special codes, and footnotes on **Scores Side Tab**
- Toggle between **Scores Side Tab** and **Class Attendance Side Tab**
- <u>Update Post Columns</u> and <u>Post Grades</u> are buttons
- Colour coding options to improve visual display of courses and assignments
- Columns on the Single Student and assignment details - preview comments and feedback
- **Categories Side Tab** being phased out – moved into **Details Side Tab**
- Adjust Category weights by term
- Include/exclude withdrawn students from grade posting
- Popup to look for grade scale, special codes, and footnotes now available on most **Scores** screens

4. Family and Student Portals and Teacher Gradebook
- When set up, the Portal can display *Cumulative Score*

5. Mobile Version 📱
- New Back button
