

Ministry of Education Bulletin

November 4, 2019

Purpose of Bulletin

The purpose of this bulletin is to provide an update RE: onboarding of the final four British Columbia public school districts to MyEducation BC and advise school districts of the upcoming outage in the MyEducation BC Production environment (occurring during Winter break) to complete the process.

Audience: Service Management Council Representatives, District Information Technology, and Level 1 support

District Onboarding to MyEducation BC

We are excited to welcome the final four British Columbia public school districts onto MyEducation BC. The staff of the Vernon (SD22), Delta (SD37), Campbell River (SD72) and North Okanagan-Shuswap (SD83) school districts have been hard at work preparing their migration to MyEducation BC, with the support of the Ministry and Fujitsu. Special recognition goes out to each of you for the part you've played and sincere gratitude to the many districts who continue to provide support to our onboarding districts.

Please be advised the MyEducation BC Production environment will not be available during the final data load to production. **The outage is scheduled to begin Friday, December 20, 2019 beginning at 5:00PM (PST) through to Monday, December 30, 2019 (PST) at 7:00AM.**
