MyEducation BC / BCeSIS Release Notes

Implementation Date
June 25, 2015

Functional Area	Details
1701	• Modified 1701 extract to display grade EL,KF and 01 thru 09 taking 10-12 courses at the cross enrolled School • Modified 1701 extract to include valid program codes • Modified 1701 extract for Student Services Designation – Designation must be primary and related IEP workflow is Active • Modified 1701 ELL Reports to display ELL years correctly
Summer School	Summer School Course Request (District view > Student top tab > Options > Import) Summer Student Load will: • Load the students from a csv file • Load student courses (course code and section) into the student schedule

Configuration Changes	In the Student Programs reference table, there is now a new field set entitled "Programs." When you select this field set, you will see a new field entitled 1701. Set this to "Y" for all Programs in your district you would like to display on the 1701 (along with the associated State Code). For Programs that should not appear on the 1701, change the 1701 field value to "N."
