

Implementation Date
August 23, 2015

Summary	Details	Change Type
Attendance	'Absent and Excused' (AE) button is now available in the Student Class Attendance codes reference table. This will allow schools to make this button visible in their class attendance preferences for teachers and clerical staff.	Change to Existing Functionality
Attendance – StrongStart Centres	A Student Class Attendance reference code has been created to enable the new StrongStart positive attendance process. A related “StrongStart Count” filter is available in School view > Attendance top tab > Class Office side tab. This will display a list of present students on a given day in StrongStart Centres.	New Process
Autodialer and Synrevoice exports	The generic Autodialer and Synrevoice exports can now be run from the School View > Attendance top tab > Class Office side tab.	Change to Existing Functionality
Courses – Current School Year	The following courses, used for entering term comments, have been added at the Enterprise level for the 2015-2016 school year: XTC--09, XTC--10, XTC--11, XTC—12.	Change to Existing Functionality
Document Type Codes	Districts now have the ability to set restrictions on document types in accordance with the new functionality added in Release 5.3 regarding document uploads to student records.	Change to Existing Functionality
General Data Extracts (GDEs)	<ul style="list-style-type: none"> • GDE Course Marks - Exception Error resolved. • GDE Siblings Information – Sibling data in system now populates extract. • GDE Course Marks – Header label correction. • GDE Student Demographics - First Nations Band now displays Band Name. 	Correction to Existing Functionality
Master Schedules – Commit Date Range	The date range for committing master schedules post EOYR has been set at the Enterprise level as 24-Aug-2015 to 7-Sep-2015. Defining a date range for this activity will prevent the possible accidental overwriting of a school’s master schedule part way through the school year.	Change to Existing Functionality

Summary	Details	Change Type
Permanent Student Record (PSR)	<ul style="list-style-type: none"> • Achievement /Attendance section sort order issue resolved. • PSR now displays: <ul style="list-style-type: none"> ○ Final mark from transcripts for all definitions except 'Elementary - Kindergarten/Primary', where it displays TR3 mark instead. ○ Tri3 mark as an alpha value if a numerical value is entered when using the 'Elementary - Kindergarten/Primary' definition ○ Final mark instead of Tri 3 mark where the definition is 'Elementary - Interm. with Final'. • If a final mark is entered as a letter grade, then the School LG field displays. If a final mark is entered as a numerical value (%), then School % AND School LG both display (based on rubric conversion value). • Report card now reflects the correct "Page x of y" for all students regardless of how long the PSR is or if they are different in the same run. • Logos now display as expected. 	Correction to Existing Functionality
Report Cards	"Display GPA" option on the report card parameter screen now populates the GPA on the report card.	Correction to Existing Functionality
Student Achievement Data Extract (SADE)	Both the "Student Achievement Data Exchange (SADE)" export report and the "Student Achievement Data Extract Exception" report can now be run from the Options Menu without causing Exception errors.	Correction to Existing Functionality
Student Services – IEP Goal Banks	Districts can now create their own goal bank categories and sub categories.	Change to Existing Functionality
