MyEducation BC / BCeSIS Release Notes

Implementation Date
August 28, 2015

Summary	Details	Change Type
Cohort 6 conversion	The following fixes were implemented: • Populate Parent Addresses when the same as the student address • Activate students	Correction to Existing Data
Course Codes (Work Habits)	The following changes were made to the Ministry Course codes for consistency with existing course code conventions. Previously, Work Habits were identified with the Course Codes X RCC-K and X RCC01 through X RCC07. These have been modified to remove the space and add a hyphen. For the 2016 school year, these codes will read: XRCC--K, XRCC-01, XRCC-02, XRCC-03, XRCC-04, XRCC-05, XRCC-06 and XRCC-07.	Update to Existing Data
School ID	The School ID field is now 'Read Only' to prevent changes being made inadvertently to the Ministry school number.	Correction to Existing Functionality
Staff Type Codes	The Staff Type 'SSCF' StrongStart Facilitator has been added to the Staff Type Codes reference table, and is now available for selection on the Staff Type picklist.	Addition to Existing Data
Summer School Marks	Summer School Marks extracted from MyEducation BC and BCeSIS SDTest environments were uploaded into MyEducation BC Production.	Update to Existing Data
Transcript Definitions	The following Transcript Definition formulas have been corrected: • Trimester - Calculated Final (Sch Exam) • Quarterly - With School Exam Further information on these changes will be documented in the Standards Manual.	Correction to Existing Functionality
Withdraw Form	The BC Student Withdraw Form, implemented August 23, has been modified as follows: • Users can now print students by selection, not the whole list • A parent signature space has been added.	Modification to Existing Report
Year of Graduation	On the Student YOG, the Help popup has been updated to include the current school year (2016).	Update to Existing Data
Withdraw Codes	The Operations and Standards Committee has approved a number of changes to the existing withdraw codes. There have been some changes to code names, several codes are being retired, and all are re-sequenced so they now appear by default according to the new sequence order rather than the previous default alphabetical order. Refer to the following tables for details.	Update to Existing Data
