

Implementation Date
September 30, 2015

Summary	Details	Change Type
1701 – Missing Postal Codes	To correct the “missing postal codes” error Districts were encountering when they uploaded their 1701 extracts to the Ministry web form, blank postal code fields were populated with the missing data.	Data Correction
1701 – Duplicate records	To prevent duplicate transcript records being picked up on 1701 extracts, Active Dates for a previous year’s transcripts (2015) were cleared if the same transcript exists in the current year (2016).	Data Correction
1701 – Duplicate SPED designations	Student Services designations were being counted in both Primary and Secondary schools for cross-enrolled students. Designations are now being counted only in the Primary school.	Correction to Existing Functionality
1701 – Band of Residence	The Band of Residence field is now mass updateable and list editable so that Districts can enter the correct required information. (Data was converted as numbers not text).	Update to Existing Functionality
Transportation Module	Districts can now choose whether to use the existing MyEducation BC Transportation module or the new Bus Information field set. The Transportation module is a more detailed daily record of student transportation that must be set up at the beginning of each year. Two new add-on roles: <i>Transportation Side Tab – District</i> and <i>Transportation Side Tab – School</i> provide access to the MyEducation BC Transportation module. (See the <i>OSC September 2015 Bulletin</i> for more detail)	Access to Existing Functionality
District Support role change	Users with the <i>District Support (Help Desk/Level 1)</i> security role can now see the Access Log in the District View.	Update to Existing Security Role
Past Educational Experience	The Past Educational Experience reference codes have been shortened to fewer than 10 characters to address truncation errors that were occurring due to the excessive length of the converted codes.	Correction to Existing Data
Student Services – Exit Date	The Exit Date field on the Student table, which is used when a student is exited from Student Services, has been renamed: Short Name: ExitStuServ Long Name: Exit Student Services	Update to Existing Data

Summary	Details	Change Type																																
Entry Codes	Entry Codes now include only the following: <table border="0"> <thead> <tr> <th data-bbox="467 268 532 296">Code</th> <th data-bbox="753 268 889 296">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="467 304 656 331">First Time Entry</td> <td data-bbox="753 304 938 331">First Time Entry</td> </tr> <tr> <td data-bbox="467 340 683 367">Public School InDs</td> <td data-bbox="753 340 1068 367">From Public School, In Dist</td> </tr> <tr> <td data-bbox="467 375 704 403">Public School OutDs</td> <td data-bbox="753 375 1089 403">From Public School, Out Dist</td> </tr> <tr> <td data-bbox="467 411 683 438">Indep.
